All Devonshire Watch Commanders have access to post messages to the Nextdoor app to inform the public of immediate dangers or critical information such as fires, intersection closures, air unit activity and critical missing persons alerts when approved by the Captain.

The Senior Lead Officers and Captains use their Twitter accounts to disseminate information to the public about upcoming community events and meetings. They post pictures from these events or meetings to help promote a comfortable atmosphere, spark interest and encourage higher public attendance so they can be more informed and act to improve the quality of life in their areas they represent.

Our "LAPD Devonshire Community Police Station" social media accounts are used to engage our community on a more personal and informative level. We post safety bulletins and crime prevention tips. We post information about community events and meetings then take pictures at those events to highlight our Officers and attendee's participation and involvement with the Devonshire Community. We occasionally post crime information to the public when directed by our detective. We also post synopses of positive interactions our Officers have with the public or commendable crime stopping or lifesaving events our officers were a part of. Our Social Media Sites are also valuable tools for informing the public of critical incidents or immediate dangers such as fires, intersection closures, helicopter activity and critical missing persons alerts. Our "Social Media Officer" engages with the community by actively responding to the replies and comments the public makes. His goal is to always remain non-confrontational and simply provide relevant information to questions, comments and occasional criticism.

Our goal is to improve the communication and overall perception our community has about LAPD. We build trust and understanding with the community by clearing up misconceptions, providing relevant information and showing our level of involvement and positive interactions our Officers have on a weekly basis with the community we protect and serve. We hope to increase our followers in social media so we as a Division can increase the effectiveness of our goals in crime prevention, public safety and building public trust.

TO: Commanding Officer, Public Communications Group

FROM: Commanding Officer, Custody Services Division

SUBJECT: CUSTODY SERVICES DIVISION OFFICIAL SOCIAL MEDIA ACCOUNTS

Recently, the City of Los Angeles, Personnel Department, completed production of flyers for Custody Services Division (CSD) to utilize for Detention Officer (DO) recruitment events (attached). In addition, Personnel Department activated a link for potential applicants. The link was posted on Facebook on an unofficial page. Custody Services Division is unaware of the owner and/or who created the page. However, CSD was advised individuals interested in the opportunity posted questions concerning the position. It is CSD's opinion that responses to questions concerning the DO position should be in an official capacity and managed by CSD. As a result, it is requested Public Communications Group approve CSD's request to create a Facebook, Instagram and YouTube account for recruitment purposes. All recruitment material, prior to posting will be closely scrutinized and monitored as well as responses to questions by the public. Approving the request will allow CSD to proactively assist the City and the Department in identifying and developing potential candidates for employment.

SUBJECT: Existing Official Department Social Media Account

Narrative: I have worked Harbor Division Burglary Detectives since April of 2012, assigned to the San Pedro area. On 12/6/2013, I created a Facebook page as "Det Baran", in order to better interact with the many social media cyberwatchers that exist in San Pedro. There are quite a few public and private Facebook Cyberwatch pages in San Pedro. Initially I had used the public ones to troll for info/tips, but as the months went by and we actually were making arrests based on tips, I reached out and met the creators of some of the pages, and was given access to private pages where even more valuable tips/videos/pics/comments of crimes occurring were being posted. Over the months and now years, I have built up an enormous resource of community interaction in reducing crime with that Facebook account. I have also used it to gather tips and suspicious sightings that don't warrant a 911 call, which occasionally pan out and allow me to solve burglaries. Citizens feel a real sense of accomplishment and pride knowing that a tip generated an arrest and solved a crime. My interaction also gives citizens peace of mind, knowing that the police are interested in what they see, and are actually working on their concerns.

INFORMATION

Communications Division (CD) maintains a significant presence on social media platforms including Facebook, Twitter and Instagram. With a combined following of approximately 79,000, our level of community engagement is second only to the LAPDHQ accounts.

The social media activity on CD's accounts is limited to passing along (i.e. "Re-Tweeting") official information from the LAPDHQ or other official City of Los Angeles accounts, educating the public on the operations of CD, the proper use of 9-1-1 and 877-ASK-LAPD, and detailing the difficult and often unnoticed role of our Police Service Representatives (PSRs).

Attached is a matrix detailing the platform, account/user/page name, account password, and the names and serial numbers of each employee authorized to manage the account and/or post information.

If you have any questions, please contact Senior Police Service Representative II Todd Austin at (213) 978-6521.
